IN THE ABSTRACT:

Please amend the abstract as follows.

~~The invention provides a~~ A side door structure of a vehicle of which side openings are covered by a front door swingably supported by a door hinge located at the front of the front door and by a rear door swingably supported by a door hinge located at the rear of the rear door. The side door structure includes a door checker for holding the front door at an open position situated slightly on the outside of a swing trajectory of the rear door.
